

AYUSH PRATAP SINGH

Python Developer | Full Stack Developer | Machine Learning Engineer

Greater Noida, India | +91 8736017422 | ayushpratap2614@gmail.com | linkedin.com/in/ayushpratap26 | github.com/ayush2614

PROFESSIONAL SUMMARY

Python Developer and Full Stack Software Developer with hands-on experience building scalable web applications and machine learning models. Proficient in Python, Java, Flask, REST APIs, and SQL databases. Strong foundation in Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, and Agile SDLC. Currently pursuing MCA at GNIOT, Greater Noida (2024–2026). Passionate about writing clean, production-ready backend systems and data-driven solutions. Quick learner adaptable to fast-paced environments with experience in AI-assisted development workflows.

EDUCATION

Master of Computer Applications (MCA) GNIOT, Greater Noida	2024 – 2026
Bachelor of Computer Applications (BCA) SMS, Varanasi	2021 – 2024
Intermediate (10+2) Swami Harsewanand School, Varanasi	Aug 2021
Matriculation (10th) Swami Harsewanand School, Varanasi	2019

TECHNICAL SKILLS

Programming Languages: Python, Java, C, C++
Web Development: HTML5, CSS3, JavaScript, REST APIs, JSON
Frameworks & Tools: Flask, Git, GitHub, VS Code, Jupyter Notebook, Postman
Databases: MySQL, PostgreSQL, Oracle, SQLite
Data Science & ML: Pandas, NumPy, scikit-learn, Matplotlib, Seaborn, EDA, Supervised Learning
Core CS Concepts: DSA, OOP, DBMS, Operating Systems, Computer Networks, Agile SDLC

PROJECTS

<u>Staff Management System</u> Python · MySQL · HTML5 · CSS3 · JavaScript · Flask	2024
- Developed a full-stack web application to manage 500+ employee records, attendance, leaves, and payroll with role-based Admin/Employee login. - Designed relational MySQL database schema with stored procedures, foreign key constraints, and automated report generation for staff analytics. - Built admin dashboard with PDF export, attendance tracking, and leave approval workflows, reducing manual HR effort by ~40%.	
<u>AI Resume Analyzer</u> Python · Flask · Machine Learning · NLP · HTML5 · CSS3	2025
- Built an AI-powered Resume Analyzer using NLP and TF-IDF keyword matching to evaluate resumes and deliver targeted improvement suggestions. - Implemented ATS-compatibility scoring, skill gap analysis, and resume upload features with a fully responsive frontend interface. - Integrated pdfplumber for PDF text extraction; reduced manual resume screening time by approximately 60%.	
<u>Loan Prediction System</u> Python · scikit-learn · Pandas · NumPy · Matplotlib · Flask	2025
- Trained a supervised ML classification model achieving 80%+ accuracy on 10,000+ real-world financial records after end-to-end EDA and preprocessing. - Applied feature engineering, handled missing values and class imbalance (SMOTE); benchmarked Logistic Regression, Random Forest, and SVM. - Deployed model as a Flask web application enabling users to receive real-time loan approval predictions via REST API endpoint.	
<u>Smart Weather & Location Insight</u> HTML5 · CSS3 · JavaScript · OpenWeatherMap API · Geolocation API	2024
- Built a real-time weather web app integrating OpenWeatherMap REST API and browser Geolocation API for auto-detected city forecasts. - Designed a fully responsive UI supporting 5-day forecast, temperature unit toggle (°C/°F), map-based location selection, and city search.	

CERTIFICATIONS

Python Programming (HackerRank, 2025) | **CSS** (HackerRank, 2025) | **Software Engineering Simulation** (Accenture, 2025)
Web Development (Aaradhya Technologies, 2022) | **AI-ML with Python Programming** (E & ICT Academy, IIT Kanpur)

ADDITIONAL INFORMATION

- Familiar with AI-assisted development tools: GitHub Copilot, Claude AI, and Agentic AI automation workflows.
- Solid understanding of Software Development Life Cycle (SDLC): requirements analysis, system design, development, testing, and deployment.
- Actively solves coding challenges on HackerRank; strong problem-solving skills with commitment to continuous skill development.
- Effective team collaborator with experience in version control (Git/GitHub), code review practices, and Agile development methodologies.
